

HA+ STRETCHER

HA+ STRETCHER

WHAT IS IT?

The HA+ Stretcher is the great ally of funeral vehicles.

It has multiple features such as 4 swivel wheels (lockable and with brake on the rear) extendable handles, trolley with wheels for vertical transport, and stainless steel tray.

A highly versatile stretcher suitable to a variety of functions within the Funeral Industry.

FEATURES & SPECS

- Removable tray, completely flat and made from stainless steel
- Positioners to lock the tray once it is placed on the stretcher
- Safety rail incorporated in the bunk
- Telescopic levers for better maneuverability
- Handle grips with reinforced material
- Rubber weatherstrip to avoid scratches and keep the stretcher looking new for longer
- 4 attack wheels to improve load and reduce wear
- Aluminium stamping feet manufactured with techniques used in the automotive industry that guarantee great resistance with a very low weight
- Intermediate stop to carry out the transfer or facilitate the incorporation of the patient
