

# HA+ POWER STRETCHER

# HA+ POWER STRETCHER

**Our HA+ Power  
Stretchers come with  
a Black & White Circles  
Design Pouch as  
standard.**

## WHAT IS IT?

**Our new power stretcher allows effortless loading and movement!  
It features a two-part system with a rechargeable electric stretcher  
and support device fitted to the transfer vehicle.**

### **The HA+ Power Stretcher consists of:**

- A resistant and light aluminium manufacture.
- Advanced software with control map, usage smoothness and battery.
- Electro-hydraulic system capable of lifting up to 300kg.
- Ergonomic control panel and fault code signaling.
- Flashing and fixed LED lighting modes for warning and darkness zones.
- Warning device buzzer when operated in crowded zones.
- Four lockable wheels and brakes at the back.
- Automatic switching batteries as charging status.
- Telescopic frame for manoeuvring in small spaces.
- External battery charger included.

# FEATURES & SPECS

The HA+ Power Stretcher is provided with a Support System to allow easy loading into the vehicle.

## Support Features:

- Composed of a fixed and moving support for a safe loading/unloading operation.
- Painted aluminium steel manufacture.
- Self-lubricating guide system.
- Side movement by foot lever on the front.
- Handle to pull the rail from inside the vehicle.
- Manhole covers for easy installation of the stretcher support on the floor of the vehicle.
- Anchor point with semi-automatic extraction.
- Automatic charging plug that is activated when stretcher is folded inside the vehicle.
- Guides for easy engagement between stretcher and stretcher support.
- Stainless steel top tray.
- Safety hooks for stretcher's clamping – removable in case of an electrical fault.
- Remote unlocking cable system for easy maintenance.
